

**TRIPOLIA SCHOOL OF NURSING (GNM)
TRIPOLIA SOCIAL SERVICE HOSPITAL
GULZARBAGH, PATNA 800 007, BIHAR.**

**PROSPECTUS
GENERAL NURSING AND MIDWIFERY**

INTRODUCTION:

Modern Nursing is a science, art and it demands a keen mind, hard study and ability to reason and apply theory to the practice of nursing. It is a positive, creative work, which has a great role to play in building, maintaining and nourishing the health of people in the hospital and in the community. Nursing profession attempts to provide relief to the suffering humanity by preventive, promotive, curative and therapeutic aspect of health.

HISTORY:

Tripolia Social service Hospital popularly known as Zenani hospital was established in the year 1893 by the Bible Mission Society of Great Britain. This had General Nursing and Midwifery training recognized by the Indian Nursing Council of India. In the year 1967-68 the Ownership, management and administration of this Hospital was taken over by the Sisters of Mercy of the Holy Cross, in India- a Christian religious organization and registered this hospital under the Society's Registration Act 21 of 1860 as Tripolia Social Service Society having its registration No. 39 of 1967-68.

The Tripolia Social Service Hospital is a unit of this Registered Society, it has other units such as Pre- school and Service Center for Hearing impaired, non-formal education for street children, GNM and ANM Nursing training courses. We also collaborate with Government of Bihar with AIDS, DOTS and Immunization Programs. We extend our service to Fathua villages, which are within a radius of 30 Kms from the center through comprehensive community health care.

PHILOSOPHY

We the Sisters of Mercy of the Holy Cross are urged by God's compassionate love to serve the humanity, based on Christ's love to bring the people closer to God and each other. We believe that the life, teachings and liberating love of Jesus who came to give life to all in its fullness and respond to his call to be actively concerned with the wholeness of every individual in the Society. That every person under the sun is a gift from God and we accept everyone as brothers and sisters. That the Nursing profession is an integral part of a collaborative health care system therefore it

requires a good understanding of scientific principles.

That the Nursing education will provide opportunities to develop and strengthen their intellectual, emotional, physical and other skills and thus they become effective and efficient nurses who can provide quality-nursing care to the sick.

The nursing task needs to be continually evaluated and adapted to changing circumstances. That the qualified nurses can become innovative and creative in their profession.

GOAL:

To educate young women to carry out safe and quality nursing care to the patients.

To prepare nurses to participate effectively in the National health care delivery system.

OBJECTIVES: -

1. To assess health status and to identify Nursing needs and to make nursing care plan. To implement and evaluate Nursing care for patients/client that contributes to the health of individual, family and community.
2. To acquire knowledge and understanding of scientific principles underlying the techniques and methods used in Nursing.
3. To obtain knowledge and develop skills and attitudes required for providing good Nursing care to the sick in the hospital and in the community.
4. To demonstrate skill in the use of problem-solving method in the Nursing practice.
5. To develop the student's sensitivity and skill in human relationships and communication in daily work.
6. To demonstrate leadership skill in working with the health team, Community and others in the provision of health care.
7. To develop ability to cooperate and help, when necessary, in Nursing research and its application to the practical situation.
8. To demonstrate ability in self-awareness and self-evaluation in personal and professional life.
9. To recognize the need for continued learning for personal development.
10. To acquire knowledge and skill in promoting health, preventing illness and rehabilitation that expresses itself in concern, empathy, kindness and loving service.
